Day 1 Detailed Itinerary for Everest Base Camp Helicopter Tour

- Time : 4-5 hours
- Max Altitude : 5545m

Accommodation: N/A

Meal: N/A

Activity 1: Takeoff from Kathmandu

Your adventure begins at Tribhuvan International Airport in Kathmandu. As the helicopter ascends, enjoy aerial views of the city, terraced hills, winding rivers, and traditional villages. The scenery gradually transforms from lush green lowlands to rugged Himalayan foothills, giving a spectacular perspective of Nepal's diverse geography and setting the tone for the high-altitude adventure ahead.

Activity 2: Kathmandu ? Lukla

Fly northeast toward the Everest region, passing over valleys and alpine hills. Arrive at Lukla Airport, the gateway to the Everest region at 2,840 meters. From above, observe steep cliffs, deep gorges, Sherpa villages, and the dramatic mountain landscape. This segment offers a rare bird's-eye view of the region that trekkers typically reach only after several days on foot.

Activity 3: Lukla ? Everest Base Camp

Soar above the high Himalayas, with panoramic views of Mount Everest, Lhotse, Nuptse, and the surrounding glaciers. Spot the Everest Base Camp, the Khumbu Glacier, and rocky moraines, all from a close aerial perspective. Witness the massive ice formations and frozen river-like glacier, gaining a unique appreciation of the Everest region without trekking.

Activity 4: Everest Base Camp ? Kalapatthar

Reach Kalapatthar, one of the best viewpoints for Everest, and land or hover depending on weather conditions. Take in stunning panoramic views of Mount Everest and the surrounding peaks. Capture memorable photographs and fully absorb the magnitude of the world's tallest mountain while enjoying the peaceful Himalayan atmosphere.

Activity 5: Kalapatthar ? Return to Kathmandu

Begin the return flight to Kathmandu. Admire sweeping aerial views of glaciers, high peaks, deep valleys, and Sherpa settlements along the way. Descend over terraced hills and green valleys as the helicopter approaches Kathmandu, bringing the full Everest experience to a smooth conclusion in about 4.5 to 5 hours.
